*Above: Council meets with the Education Minister*  
After visiting Wiluna on May 30<sup>th</sup> the Education and Training Minister Ljiljanna Ravlich announced during the visit that the town would have a new \$5million school.

It would be constructed on land opposite to the Wiluna Shire offices and next to tennis courts, a community centre and adjacent to the town swimming pool.

Other purpose-built classrooms would be added to those to form the new school.

Ms Ravlich said architects would be appointed within the next two months and it was expected the school would be ready to open in 2008.

"I am delighted that the Wiluna shire has helped identify a suitable location for the new school next to existing community facilities," she said.

The Minister flew to Wiluna to meet with shire officials and community members to discuss their concerns.

"After visiting the existing school and speaking with members of the Wiluna community, I was convinced that a new school in a different location was the best option for everyone," Ms Ravlich said.

Murchison-Eyre MLA and Goldfields Minister John Bowler described the announcement as great news.
